CAREER GOAL

I am seeking a career within the Information Technology Field where my tertiary training and aptitude for programming and artwork design, combined with my desire to aid people using modern technologies, will be an asset to both my employer and the community.

EDUCATION AND TRAINING

2011- 2014   **Bachelor of Information Technology (Informatics)**
Griffith University (Expected completion – July 2014)

Specialisation: Network Security

Key Subjects:
- Applications Development (Distinction)
- Web Programming (Credit)
- Network Security (Distinction)
- Industry Project (*Opmantek*)
- Software Development
- Database Design

Team Projects:

Developed a First Aid application in iOS to assist users in first aid and to provide information for users on Injuries.

Developed (in conjunction with three other students) a desktop database application for Queensland Health that will be used to assist nurses from the Hospital when performing assessments.

Project Manager, IT Project

- Organised and allocated tasks to a team of 3 students.
- Ensured tasks were completed on time.
- Liaised with clients and assessors.
- Assisted in the Design and Building of Software.
- Selling and Marketing Ideas to Clients

TECHNICAL SKILLS

Advanced skills in:
HTML, CSS, PHP, Java, Javascript, JQuery, SQL, MySQL, Adobe Photoshop, JQuery.

Experience in:
FTP Managers, Dreamweaver, Adobe Photoshop, Client Communication.

PROFESSIONAL WORK HISTORY

2009 – 2010

Kmart – Helensvale (Casual Part-time)

Product Replenishment Manager

- Interacting with Customers and Selling and Selling Products to Customers
- Delivering high-quality service to Customers
- Interacting and Communicating to Managers and Team Members

Achievement: *Achieved successful client liaisons and created repeat customers that would repeatedly come back to Kmart. Achieved friendships with Team Members in Kmart, with Friendly, and Positive Attitude. Was well liked by Manager for highly motivated, and energized personality.*

ACHIEVEMENTS

2013   **Finalist for the Opmantek Prize for C.H.I.L.D.S Team Referral Database (Hosted by Opmantek Ltd)**

2013   **Established Positive working Relationship with Client** – **Griffith, Third Year Project**

2010   **Established good working Relationships with Customers - Kmart**

PROFESSIONAL SKILLS AND ATTRIBUTES

- Strong oral and written communication skills (Many assignments involved presentations and reports. I gained credits and above for all these assignments)
- Well-developed research skills (as required for assignments and through research work for course work)
- Problem-solving skills (as demonstrated by assignments where I was required to design and develop software applications and debugging applications).
- Time-management skills (as shown by keeping to the deadline on assignments, throughout University Courses).
- Effective teamwork skills (fostered through working on group assignments with other students, and gaining a Credit average for each).
- Excellent Development Skills (grown throughout University Course from 2011 to current date).

COMMUNITY ACTIVITIES AND INTERESTS

Mobile Application Developer: In my spare time, I have taken the time to build, and develop more mobile applications, and have sold these on the Google Play site.

GriffLug Member: During my time at Griffith I have attended a number of GriffLug Events where people can get together to develop, using Linus OS and with various Open Source Software.
